

Paul James Pouthier

Production Sound Mixer

- I.A.T.S.E. Local 52 & Local 695 - Academy of Television Arts and Sciences -

My career as a Sound Mixer began in 1994. After six years as a recording and live concert engineer, I decided to focus my attention on sound for film and television. In 2005, I was taken under the wing of a renowned mixer, the late Allan Byer, learning some of my craft's best techniques for creating superb dialog and effects mixes. I started mixing full-time in 2013, beginning with the final episode of Gossip Girl.
